Building Construction!

In the last newsletter, we talked about building leadership. Sometimes that requires constructing physical buildings and facilities to teach and train those leaders and disciples! At the end of July we began a series of projects to remodel and expand our present facilities to better minister to children, BTC disciples, and to the Living Water Academy students; we also upgraded the administrative areas. These projects consisted of constructing walls to divide sections, enabling us to increase the number of administrative offices and meeting areas, refinish

arrange student desks and offices, and the construction of a multipurpose 30 x 60 feet court for volleyball, basketball, and soccer.

Holy Spirit Seminar-USA

Opportunities abound to minister the Word as the Lord continues to open the doors. Brother Gary was invited by José Rodriguez, one of our BTC graduates who now pastors in the U.S., to teach a Holy Spirit Seminar in South Carolina at the end of June. Believers from a number of Spanish speaking churches in the area attended the all-day seminar. The Word of God was sown and people's thoughts of the Holy Spirit changed. Many of those present were filled with the Holy Spirit and were greatly touched by the presence of God.

The next day, Sunday, Brother Gary was able to minister the Word in three churches, one in English and two in Spanish. Several people received Christ as Savior and many others in the night service were baptized in the Holy Spirit. The love and power of God changes lives and brings blessing wherever the Word is preached or taught. Glory to Jesus!

Fruit from LWT Honduras BTC

In August Pastor José Rodriguez, the Honduran graduate that Brother Gary visited in June-July in South Carolina, and his wife Rosa (who is quite an evangelist), visited Honduras. They have lived in the U.S. since 1997 and have helped start four or five churches during that time. Last year they

and varnish the exterior doors, stucco and paint the new classrooms built last year, repair, paint and re-

Newly Painted Classrooms for BTC and LWA

themselves founded a new church in Greenville, SC and are reaching many in that city. They are also

involved in starting and supporting a ministry to alcoholics and drug addicts on the streets of Tegucigalpa and Siguatepeque, here in Honduras. LWT-Honduras is also involved in helping establish this new ministry outreach. Pastor José and wife Rosa spent about three weeks here sharing this vision and also preaching in churches; they visited and preached at the LWT Honduras Church also, encouraging us in our work and to continue serving the Lord in faith, through obedience to His call.

Going to the Street

Brother Gary also accompanied the evangelistic team to the streets with Pastor José. The team ministered to those living on the street by serving them a meal and speaking with them. Brother Gary gave the message, speaking of God's love and hope for them. Of the 35-40 persons, the majority raised their hands to pray and receive God's gift of forgiveness and salvation in Christ. God's arm is not short but long and mighty to save!

Our Next Musician ☺

As you may know, Sister Katrina plays the piano for the Praise and Worship. Garrett plays the guitar. Our 2nd son, Josiah Brett, plays the recorder flute, the drums, and as you can see the piano too. He loves music, sings alot, has perfect pitch, and even beat-boxes! The Lord gives gifts and talents to us all and we are grateful for what He has given our children.

Double Blessing!

We are pleased to announce new editions to the family: our oldest daughter Leisel along with her husband Lowell, are expecting their first in December. The blessing is that it's not just one but *two* children who will be born! Yes, that is right, they are expecting twins, a double blessing. Thanks be to the Lord for His great grace and love for us all.

Digging a Well

After much prayer and meditation, we obeyed the Lord in His leading to dig a well on the LWT property. PTL—water was found at 120' and we dug all the way to 200' to ensure 15-20 gallons per minute of good water. The entire project costs \$9500, and we have paid for 60%. The remainder is the cost of the pump installment and running of the PVC. If you desire to give into this special project, follow instructions below or you can go to our website and give through Paypal. Now we have Living Water running spiritually AND physically. ☺
